IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and painful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing the change of life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Gaston A. Maindon has received a picture of Henry Myers, Private Property and Corp. Owen Kelley, taken while the three Danielson young men were together in a German town recently. All look splendid and appear to have gained weight.

Danielson had plenty of train and public service vehicles Saturday, but the rain again interfered with the business men's prospects for a really busy trading day.

A story has leaked out of acts of vandalism committed at a camp at the southern end of Alexander's lake by Danielson young people. There were no prosecutions, but a settlement, it is understood, was reached. The persons injured, was reached.

Mails that ordinarily are transported between East Killingly and Danielson by electric cars are now being despatched, both ways, with an automobile, the service being regularly maintained.

Members of Danielson's troop of Boy Scouts left here Sunday afternoon for two weeks' encampment at Green's grove, Quantic lake, Purchase, Conn., near and near the Rhode Island border.

Brooklyn is one of the towns expected to have a post of the American Legion. Killingly wants one, too, but no former service man has yet taken the initiative in the matter.

Not much could be accomplished the past week on state road work at Dayville. A start has been made, however, and the work will be carried on as rapidly as is possible.

Members of the fire service between Danielson and Providence cut off the early delivery of certain popular newspapers, arriving here over other and slower routes.

In addition to other special transportation services of the day, a motor bus line was put in operation Saturday evening between Danielson and Alexander's lake, where many gathered for the dancing.

Not much enthusiasm could be developed in Danielson over taking a hand in making life happier in summer for children of the New York temperance districts who would be sent here as fresh air children.

The train service given Saturday by the New Haven road was practically a restoration of the regular service of this line, as to many of the traveling men in town especially, it seemed quite wonderful to be able to get a train again at intervals of less than an hour.

The law has brought an influx of private car owners into the passenger carrying business, contrary to the law of the state. Much of this passenger carrying by private car owners is done under the "don't you tell" program. Owners who violate the law may be fined as much as \$50 for each offense.

Some relief from the cutting off of supplies, chiefly by motorists, has been here by the Providence-Danielson trolley express bus, has been obtained by substituting big motor vehicles for the smaller trolley cars. Fruits, meats and other perishable products. The motors can make the trip in less than three hours. Little rest route, over which it is less than 30 miles into the heart of the city. Norwich is also using a motor bus service to supply Danielson and other towns along the line with many perishable products. Mill companies also have big trucks on the route between Danielson, Full River, New Bedford, Taunton and other textile centers in southern New England, and are developing what may prove to be a permanent addition to the transportation facilities of this region.

Miss Orpah Spaulding Chase, daughter of Mr. and Mrs. Charles D. Chase of Norwich, was married Saturday afternoon at 2:30 at the Park street Congregational church, Boston, to Harry Winthrop March Storer of Boston. The regular public service vehicle men of this city said Saturday that the trolley strike has not affected them that business has been only normal during the strike.

A measure this is accounted for by reason of more public service drivers giving extra time to carrying passengers.

The children are to be placed in private homes in many sections of Putnam and vicinity and are to remain for two weeks. Last year the children who came were home delighted with their experiences and all here who are interested in their welfare are going to see that they are just as happy and pleased when they round out their vacation, two weeks hence.

Boxes 23 and 24 of the fire alarm system were tested out here Saturday by Superintendent John E. Daigle, this being in accordance with the plan to test two boxes weekly until the whole number have been tried. On these tests the box call is blown only once.

I Am a Criminal

I KILL STORAGE BATTERIES

I Am Ruinous Sulphation

- I cause plate hardening.
- I cause internal short circuits.
- I cause over-heating.
- I cause plate buckling.
- I cause loss of power.

Where they try to prevent me from buckling their plates by holding them apart with celluloid combs at the corners, I laugh and bulge them out at the centers, or crumble off their active material in chunks.

Where they try to defend their plates with rubber, I set up extreme, internal heat, hardening the plates and clogging the separator pores.

I cause 90 per cent. of all battery troubles.

Because of me, batteries have to be put into either dry or wet storage during idle winter months; thus adding 10 to 20 dollars to the original cost of the battery.

I exist in all batteries but one.

struck by a big public service touring car owned and driven by John Ryan of this city. Berry was walking along the highway from Alexander's lake to Atwoodville when the Ryan car came rolling along behind them. At the same time another car, registered 4442 Conn., shot out of a lane that leads from camps on the north shore of the lake. In attempting to avoid a collision with the other car, Ryan swung his machine sharply to the right and across the trolley track. Although Berry and Stone, sensing their danger, ran up an embankment bordering the railway, they were struck and knocked down by the car driven by Ryan. Berry was removed to the Day Kimball hospital, where an operation upon him Sunday morning it was found that his spleen had been torn apart and one kidney injured. Although his condition was considered serious on Sunday, the operation was regarded as successful.

Coroner Arthur G. Bill visited the hospital Sunday morning before the operation and took a statement from Berry.

Stone was not seriously hurt, although he was carried into the Way house, near where the accident occurred, and remained there over night. The two cars that figured in the accident were in collision, but neither was seriously damaged.

Coroner Bill said Sunday night that he had not looked up the owner of car registered 4442 Conn.
